01 Abstract

The Cutest Meme The World Has Ever Seen!

PomPom was created in Sept 2021 with the goal of being a decentralized meme project with true purpose.

PomPom's mission is to bring popular cryptocurrency concepts to the mainstream. Unlike older, comparable projects, PomPom introduces holders to next-gen concepts such as participation rewards, NFTs, decentralized exchanges, and more.

The PomPom project includes...

\$POM TOKEN

A BEP20 meme token that fosters and promotes healthy and widespread usage and decentralization of the project through a specific reward linked to users' transactions involving decentralized wallets.

POMPOM SWAP (Coming Soon)

Decentralized exchange that features custom functionality and allows holders to trade among themselves and without any centralized point of failure any BEP20 token for another.

POMPOM NFT (Coming Soon)

NFT Marketplace where users can stake \$POM in exchange for NFT rewards created by artists from community contests. The artists are awarded prizes out of the \$POM staking pool.

POMPOM sWAG (Coming Soon)

A merchandise store run by a ownerless, stockholderless non-profit organization to allow \$POM holders to proudly support PomPom's fun in the real world, with any and all proceeds supporting the PomPom's project growth, maintenance and future features.

02 Values

TRANSPARENCY & COMMUNITY

PomPom is owner-less, fully decentralized and supported by its community of enthusiasts. Free, open and frank communication is encourage within the community supporters so that everyone willing can be informed and even participate in every step of PomPom's growth! Multiple, independent, free group efforts in development, community self-management and more are strongly encouraged!

TRUST

In the cryptocurrency market, Trust is paramount. That means full transparency not only in the community support and development, but also in any security effort. Examples include top-grade audits of \$POM's code, and liquidity tokens being burnt to strongly reduce any risk of malicious behavior.

LONGEVITY

PomPom is in it for the long haul. The decentralized community is fostering long-term development of the ecosystem which will result in real use cases, greater rewards and a popularity beyond any temporary trends.

03 \$POM Token

\$POM is an BEP20 token which started on the Binance Smart Chain in Sept 10, 2021.

The max supply is 1 quadrillion and one of its key functionalities is its decentralized usage rewards mechanism. For every active user transaction a 2% \$POM reward is granted to holders' decentralized wallets only, fostering a healthy distributed network and community usage. The more \$POM is actively used, the more rewards are granted!

The \$POM Token Smart Contract will have a top-grade security audit very soon to further the community's confidence, in full transparency.

PomPom is a fully decentralized and community driven project - \$POM liquidity pools and listings will be added by many completely independent enthusiasts and supporters in a number of different exchanges in the near future, such as:
